

## Meeting 1

Date: 02/19/24

Start Time: 1:30 pm

End Time - 2:30 pm

Team Name: The Residents

Project Name: CARES - Conn. Advanced Russell Emergency Services.

Team Members: Aden, Sandro, Fatima

Members present: Aden, Sandro, Fatima

Leader: Fatima

Recorder: Sandro

Github: <https://github.com/alessio425/CS460W-ER-Project>

Report tasks completed in the previous week:

Aden: Completed Deliverable #2

Sandro: Completed Deliverable #2

Fatima: Completed Deliverable #2

Summary of discussions:

- make sure to follow the same style of class diagrams
- use figma class and object diagram to template out each section (combine later)
- Use figma space for activity diagrams

Assignments for the next week and member assigned:

- (Aden) - Class and Object Diagram (Labs, Billing), Activity Diagrams (RunLabs, Prescribe), finalize prototype user interface for show and tell
- (Sandro) - Class and Object Diagram (Person, Patient, SeenPatient, AdmittedPatient, EmergencyRoomStaff, Nurse, Doctor, BillingStaff), Activity Diagrams (EditInformation, PatientAdmission)
- (Fatima) - Class and Object Diagram (Diagnosis, Prescription), Activity Diagrams (Check-inPatient, Discharge)

### **Agreed Due Dates within Scope of Deliverable**

February 28th - Deadline for each team members assignments to be sent to team leader

March 2th - HARD DEADLINE for shared documents of class and object diagram and activity diagram ready for Deliverable #3

March 4th - ACTUAL DEADLINE for Deliverable #3 (Screenshots of Class and Object Diagram, Activity Diagram, and Reflection Paper)

Deliverable Three Agenda

1. Create class and object diagrams for specified assignments and combine them on figma webpage
2. Create activity diagrams side by side on the figma webpage space and make sure they have the same formatting
3. Finalize user interface and create screenshot for Deliverable #3

## Meeting 2

Date: 02/28/24

Start Time: 9:55 am

End Time - 11:10 am

Team Name: The Residents

Project Name: CARES - Conn. Advanced Russell Emergency Services.

Team Members: Aden, Sandro, Fatima

Members present: Aden, Sandro, Fatima

Leader: Fatima

Recorder: Sandro

Github: <https://github.com/alessio425/CS460W-ER-Project>

Report tasks completed in the previous week:

Aden: did not breathe, did not plan vacation/spring break, completed UML class and object diagrams, completed activity diagrams, played around with GUI

Sandro: Note-taking

Fatima: Started working on assigned class and object diagrams

Summary of discussions:

- Finish all UML diagrams before starting bulk of code
  - Make revisions week after Deliverable #3 due date
- GUI is in a good place for additions of code for the program's initial implementation
- Fatima is almost done with prescription and treatment research

Assignments for the next week and member assigned:

- (Aden) - relax (take a breather), take suggestions from client about GUI and play around with it
- (Sandro) - finish notes, start class and object diagrams, and start activity diagrams
  - start framework code for Hashtable database
- (Fatima) - start to finish class and object diagrams, and start activity diagrams, and finish prescriptions and treatment research

### **Agreed Due Dates within Scope of Deliverable**

February 28th - Deadline for each team members assignments to be sent to team leader

March 2th - HARD DEADLINE for shared documents of class and object diagram and activity diagram ready for Deliverable #3

March 4th - ACTUAL DEADLINE for Deliverable #3 (Screenshots of Class and Object Diagram, Activity Diagram, and Reflection Paper)

Deliverable Two Agenda

1. Get UML class and object diagrams squared away
2. Get UML activity diagrams squared away
3. Start discussing who codes what (initial class structures)

### Meeting 3

Date: 02/28/24

Start Time: 1:30 pm

End Time - 2:30pm

Team Name: The Residents

Project Name: CARES - Conn. Advanced Russell Emergency Services.

Team Members: Aden, Sandro, Fatima

Members present: Aden, Sandro, Fatima

Leader: Fatima

Recorder: Sandro

Github: <https://github.com/alessio425/CS460W-ER-Project>

Report tasks completed in the previous week:

Aden: updated GUI (non-functional) based on client preference

Sandro: Note-taking, looked at example class diagrams

Fatima: Worked on assigned class and object diagrams

Summary of discussions:

- Get ya work done, NOW!!! (Imao jk, love you all <3)
- Make sure each class has appropriate naming conventions for Java as well as getters and setters for relevant information
- Worked with Fatima on GitHub desktop functionality
- Create a UML diagram for the database portion of our code, simple functionality, and access to information

Assignments for the next week and member assigned:

- (Aden) - relax (take a breather),
- (Sandro) - finish ye work and send it to Fatima
- (Fatima) - do whatevs, be happy

### **Agreed Due Dates within Scope of Deliverable**

February 28th - Deadline for each team member's assignments to be sent to team leader

March 2th - HARD DEADLINE for shared documents of class and object diagram and activity diagram ready for Deliverable #3

March 4th - ACTUAL DEADLINE for Deliverable #3 (Screenshots of Class and Object Diagram, Activity Diagram, and Reflection Paper)

Deliverable Two Agenda

4. Get UML class and object diagrams squared away
5. Get UML activity diagrams squared away
6. Start discussing who codes what (initial class structures)
